Sep 2013 – Jun 2014: exchange student, Boston University, Boston, USA

DISSERTATION (monography)

Perceived fairness and its impact on preferences for redistribution:
What is a fair income distribution? How does this perception influence our political attitudes, preferences and behaviour? And how do we shape this perceived fairness? Using literature on preferences for redistribution and behavioural economy, my dissertation will tackle these questions by means of survey analysis, survey experiments and lab experiments.

ACADEMIC APPOINTMENTS

- 08/2018 – present **Research assistant**, Department of Political Science and International Relations, University of Geneva, Geneva, Switzerland. Project: Inequality in the mind (SNF)
